

2014 SPRING SHEEP OPTIMISER

WORKSHOPS

- **How Many Vaccinations?!** Vet , consultant & farmer Tim Watts tells you everything you need to know about vaccinating ewes & lambs. This presentation will help you identify a package that works for you as well as what's required for a fully effective protective program.
- **Weaner Management-** Mark Allington from Icon Agriculture will give a timely presentation on weaners covering energy, protein, supplements, feeding techniques and general advice on how to make them thrive not dive!
- **Breech & Fly Management** – Following up from AWI's recent Sydney R& D update Consultant Ed Riggall will give a run down on where alternative mulesing technology is at, what level of resistance is being recorded in fly treatments and drenches as well as focusing on where the biggest impact can be gained from genetics.
