

2017 AUTUMN SHEEP OPTIMISER WORKSHOPS

- **A Piece of the Action** - Wool prices are breaking new ground and wool futures are strong - Ag Concepts and Primaries will go through the futures marketing options as well as gaze into the price crystal ball.
- **Tools of the Trade** - There is plenty of technology available to growers but what tech is actually making/saving money and time? Consultant Ed Riggall reviews tools such as chaff carts, sheep apps, sheep handlers, remote cameras and drones as well as checking out developing technology.
- **Preparing a Shipper** - Assoc Professor Anne Barnes runs through her research on the impact of what you can do pre-export to improve live shipping. She will also discuss her experiences with shipping and destination feedlots. *Badgingarra & Wagin*
- **Sheep – More Money Less Work** - Is it possible? Following The Sheep's Back Statewide survey Mark Allington (Icon Agriculture) will tell you the State's production results, what's possible in your area and what's required to deliver financial returns in your environment.
- **Market Impact & Social License** - From classrooms to catwalks: why wool is winning. Marius Cuming from AWI Corporate Communications discusses market impact and defending our precious social license.
- **AgriWebb - Mixed Farming App** - Jamie Lawrence from AgriWebb will outline their app; one of few that cover all areas of mixed farming. *Badgingarra only*

<i>Date</i>	<i>Location</i>	<i>Venue</i>	<i>Time</i>
